St. Andrews File. November 1974 - December 1975. Initial meeting re: Miramichi dredging. Suggestions for environmental studies. Inventory of data-references requested and produced. Trout document. Hydraulic model brochure. Blue print. terms of reference for Assembly of Fisheries Resource Information for Environmental Assessment.

St. Andrews File. September 1976 - May 1977. Question of Canplan's "no environmental constraints". Dominy's response to the CanPlan IEE. Dominy's comments on the Miramichi Channel Study. Mention that there is no initiator for a formal EIS under EARP. "no significant impact on the fisheries was anticipated".

St. Andrews File. June 1977 - June 1978. Offers from DFO to assist in design, supervision, and services. DFO insists that currents, sediments and the fishery are high priority. Fishermens concerns. Mention of DPW's "no significant impact" act. Resource and Exploitation Information and Conflict ratings chart.

St. Andrews File. July - August 1978. Mention of fishermens' compensation fund. 1979 permit. Requested changes.

St. Andrews File. September - October 1978. Questionnaire. Memorandum re: compensation permits. Report of expected stability of the spoil to be disposed at dump site A. Fishermen meetings. Need for a DFO observer is identified and requested. Williston leaves the meeting of MCSF. MFU meeting.

St. Andrews File. November 1978. Fishermen's meetings and concerns. Landva Report. Resource maps and report. Questions and responses for M.P. Maurice Dionne.

St. Andrews File. December 1978 - February 1979. Summary of dump site selection criteria. Details of arrangements respecting potential impacts to those employed in the fishing industry. Minister LeBlanc statement. Offer of advice to DPW from EPS to design the monitoring program. Brief note for Minister LeBlanc. Estimates of inhouse costs for a monitoring program. Press release re: MEMC. Proposed DPW program as prepared by Marex. "Creeping Industrialization...."

St. Andrews File. March - May 1979. "so amateurish and incomplete.." Mir. Port Improvement Authority. Political pressure from Chamber of Commerce - Newcastle. Neguac Chamber of Commerce against dumpsites B and C.

St. Andrews File. June 1979 - January 1980. 1 million dollar proposal.

St. Andrews File. February - July 1980. Marex Proposal for 1 million. Program modified. J. Uthe's letter suggesting inhouse participation. Confidentiality of fishermen's data. DFO suggest control of program. More concern about DFO data Test dumping discussed. New Marex Proposal for 660k. Warning that consulting from DFO was available and that the consultants' monitoring program was "indefinite and information would be inclusive" (sic). Minister LeBlanc requests a liaison.

St. Andrews File. August 1980 - April 1981. Boise-Cascade papermill pollution. Dredging Impact Review Committee mandated. Recommendation of dredging equipment types. Formation of committees. Plansearch's proposal for monitoring. Full-time fisheries field manager. Transfer responsibility to the Gulf region. Warning of the potential collapse of

the salmon fishery owing to dredging and a commercial fishery. News release. Violence threatened. Considerable input from fishermen. (This is a reference from MacLaren Plansearch, Final Report 1984.)

St. Andrews File. May - June 1981. Press reports. Fishermen suggest movement of the dredge and request that the monitoring committee be extended to ten years. Meeting with Murice Dionne (MP). Impact Review Committee not working properly. Meeting to identify all the participants in the monitoring group, including proponent to RODAC. Dredging project...more difficult to control. Second dredge arrives before lobster season over. Mandate of the monitoring Committee. OSS's observations on the project. DJS's concern over the pace of review. Note to minister re: Lobster season conflict. Brief up-date on dredging activities.

St. Andrews File. July - October 1981. Fishing conflicts arise with the commencement of dredging operations-lobster gear. Fishermen identify that dredging has impact on smelt fishery. Slides of the river and operations. Gaspereau landing data. Striped bass fishery up. Scarratt's contractor inspection. Progress reports from MPL. Meth to observe similar project in U.S. Meetings with the fishermen in Chatham. Warnings about reduced fishery take effect. Eel grass. Frustration with contacting impact monitoring committee.

St. Andrews File. November 1981 - February 1982. Meeting with fishermen re.lobster catches and compensation. Dale Buckley's memos re: SPM. DFO memos re: lobster and salmon logs. Division of claims between DFO and DPW committees. Miramichi winter monitoring-off then on. DJS's comments on Tidal Power, etc. "...unwielding and insensitive...gaps in data." Interviews with fishermen. Requests for fisheries exclusion zones. Transfer of claims to DJS's office.

St. Andrews File. March - April 1982. Evaluation of the 1981 monitoring program, a few comments on compensation for equipment fouling and reduced catch in gaspereau and salmon fishery, and RODAC's recommended monitoring program for 1982.

St. Andrews File. May 1982. Refinement of the methods and the announcement that MP will sub to the others. MP's proposal in detail. Approval of the proposal. Mention of K. Kranck's study. Legal Services opinion letter.

St. Andrews File. June - August 1982. Response and completion of the 1981 Environmental Monitoring of the Dredging of the Miramichi River report. Telexes mentioning claims. Description of the fouling. Investigation by DFO. Statutory declarations. Rough 1982 monitoring data begins. Ichthyoplankton sample problems. Progress reports. Fouling report by DFO personnel.

St. Andrews File. September 1982. Environmental monitoring meeting in Newcastle re: compensation. August dump tracks. Progress report. Conan to report on eel grass. New Requirements. More compensation requests.

St. Andrews File. October 1982. Pressure to settle from fishermen. Cooperation in monitoring fouling. Who's mandate to look into compensation monitoring. Dredge tracks. Rough data.

St. Andrews File. November 1982. Criticize ichthyoplankton sample. Conans report - no eel grass here. O₂s low then questioned . Challenge the fishermen for facts. Francis Jordan letter: channel and dump site stability.

St. Andrews File. December 1982. A suggested monitoring program for 1983. Payment of claims if ... More claims - loss of catch- values high.

St. Andrews File. January - March 1983. EPS meeting to review results of 1982. 1983 permit. Minutes of the MC. Still ichthyoplankton sample problems. F. Jordan analysis of fouling samples. PJ in. R.A. in. Chart of complaints. Invitation to meet fishermen. 1983 and 1984 MP proposal.

St. Andrews File. April - June 1983. DJ's comments on MP83. Modifications of the suggested 1983-84 monitoring program. Francis Jordan says that dump A is stable. Parts of the MP 1982 Draft report are included here. MLA Roger Wedge calls. Anon. report on gaspereau [R. Alexander?]. K. Kranck's report on peat. DPW Minister pressing for settlement. Decision on nine claims. Baie Ste-Anne damage data. Up-dated report from Ross Alexander including non-biological criteria. Another up-dated report from Ross Alexander.

St. Andrews File. July 1983. Seatech request new lab to carry their analyses. Comments still on the MP1981 report. MP 1981 Report. A final compensation claim settlement.

St. Andrews File. August - September 1983. Claims for 1981 gaspereau catch reduction and 1982 reduction. Copies of letters to DPW and reasoning behind each settlement.

St. Andrews File. October - November 1983. Interim progress report. Status Report to Dominy. Minister's letter to MFU.

St. Andrews File. December 1983. Five outstanding open water smelt fishery claims still not resolved. Rough notes on claims. Enclosures include large table showing 1981-2 claims and William Murdock's landing receipts.

St. Andrews File. January - May 1984. 18 more claims. PJ's proposal to Beanlands. Vivian's "opus". Meetings re: 1983 claims. Four more claims - smelts. Review of the MP 1984 report. Two more smelt claims.

St. Andrews File. June - February 1985. Comments by Packman on MP 1984. The G.G. approves the compensation to 15 fishermen. PJ's letter to Packman. Six more claims. Ross to the rescue. Ministers letters. Richard W. Welsford Research Group Limited hired.
